

Draw Penny

Felicity loves to draw pictures of Penny in her copybook. See if you can draw Penny, too.

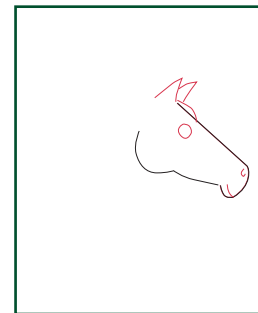

Use a pencil for steps 1 through 5. For step 6, use markers, crayons, or colored pencils. Use a fine-tip black marker to outline the drawing when you're finished.

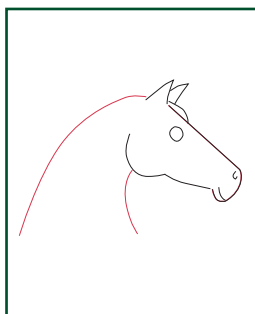

1. Draw a straight line for Penny's forehead and a curve for her muzzle.

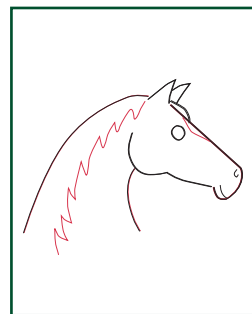

2. Draw a straight line for her jaw and a curved line for her cheek.

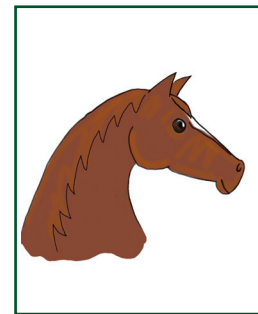

3. Add ears, an eye, a nostril, a mouth, and a forelock (the hair on Penny's forehead).

4. Add two curved lines for the horse's neck and throat.

5. Next, draw some squiggly lines for a mane, and add Penny's white blaze.

6. Finally, add some color to complete the picture.
